

**METHOD AND SYSTEM TO ACHIEVE THERMAL TRANSFER
BETWEEN A WORKPIECE AND A HEATED BODY DISPOSED IN A
CHAMBER**

ABSTRACT OF THE DISCLOSURE

5 Disclosed is a method and system to achieve thermal transfer between a workpiece
and a heated body that are disposed within a chamber. The method includes placing the
workpiece at a first position within the chamber, spaced-apart from the heated body a first
distance; establishing the pressure within the chamber to be at a predetermined level; placing the
workpiece at a second distance from the heated body to effectuate thermal transfer between the
10 body and the workpiece, with the second distance being less than the first distance.
